

An Exceptional Sixth Form Experience at More House School (Frensham)

Rated 'Exceptional'

a post-16 provision where
students thrive!

Following a full school inspection by Ofsted in February 2026, More House School was awarded *Exceptional* gradings in **FOUR** categories!

One of the four areas highlighted was our excellent post-16 Sixth Form programme.

Ofsted

Read our report ↗

Students in the sixth form become confident, ambitious young adults because the post-16 provision offers the perfect mix of independence, challenge and personalised support.

(Ofsted Report, February 2026)

At the heart of the school's ethos is an unwavering belief that all pupils are highly capable and can achieve exceptional outcomes.

(Ofsted Report, February 2026)

By the time they leave, all pupils have the qualifications, skills and self-belief they need to succeed, moving on to impressive destinations that reflect their interests, talents and aspirations.

(Ofsted Report, February 2026)

A school-based Sixth Form

personal, supportive and purposefully different

A comfortable, less overwhelming or over-stimulating Sixth Form Centre than found at most FE colleges

A strong pastoral network and continuity of care

An ambitious learning environment designed specifically for pupils with literacy and language-related SEND

Small class sizes (usually between 5-10 pupils)

Individualised specialist learning support and truly inclusive adaptive teaching delivered by expert staff

An environment that prepares students for university (including Russell Group and Oxbridge), apprenticeships and employment

An ambitious learning environment

Our exceptional teaching and SEND provision continues seamlessly post-16.

The More House traditional **2-year Sixth Form** route offers a broad, ambitious range of over 20 A-Level and Level 3 BTEC subjects. Other enrichment opportunities, such as the Extended Project Qualification (EPQ), are also offered.

In the **Foundation year**, pupils are supported to re-visit the GCSE Maths and/or English curriculum and work on the skills and knowledge needed to secure a pass in re-sit examinations. The More House Foundation year is wrapped in unique specialist support, with classes led by subject expert teachers, delivering content in a way that is specifically adapted for neurodiverse learners.

Pupils have a real choice of courses so that they can follow their strengths and interests, and take meaningful steps towards their future goals and ambitions.

Every pupil at More House has access to specialist learning support through the on-site LDC (Learning Development Centre). Support is tailored specifically for the academic demands and personal development required for post-16 study. Study Skills tutors support pupils to develop the skills necessary to manage the new challenges of Sixth Form, such as prioritising and workload management for independent learning.

I particularly enjoyed my time in the Sixth Form when I could focus on the 3 A-Level subjects that interested me the most and I felt supported by the staff in my choices and was inspired by their teaching. As a result, I am now studying a degree in Politics and International Relations at university. I still use the organisation, revision and exam strategies shown to me by the MHS learning support team as essential study tools to help me at university.

Results and destinations

remarkable academic and social success

More House School's Sixth Form delivers exceptional outcomes and prepares pupils for ambitious futures. The majority of More House leavers progress to universities which regularly include Russell Group institutions, and even Oxbridge. Others enter meaningful training opportunities or employment, and enjoy great success in their chosen careers.

They progress to apprenticeships, university courses and careers that reflect their interests and ambitions.

Many are inspired by their studies. Frequently, all students are still in education, training or employment years after leaving the school.

(Ofsted Report, February 2026)

Like many of the pupils who arrive there, I had not had the best of times in mainstream education. My parents were told I'd never achieve top grades and get into university. The incredible teaching staff enabled me to find my true potential and helped shape me into the man I am today.

BTEC Level 2

Business Administration

During the Foundation Year, we also offer a range of enrichment sessions designed to support pupils in developing independent study habits. These opportunities help build the skills, confidence, and resilience needed to thrive in Sixth Form.

All Sixth Form pupils also have timetabled Life Skills and Personal Social Development (PSD) sessions.

Please note: subjects and courses are subject to change (reviewed annually). This can be discussed further during the admissions process.

Excellent *Progression & Futures* programme

Preparing students for their next steps in education, training or employment is a key part of our school's ethos. The world is constantly changing around us and our Sixth Form prepares students for real futures.

To support this, every Sixth Former benefits from a structured Progression & Futures programme that builds independence, confidence and clarity about their next steps.

Effective partnerships with employers, including a bank, a supermarket chain and even a Formula One team, give students valuable insight into the world of work.

(Ofsted Report, February 2026)

Careers Guidance

Tailored careers support ensures each student receives personalised advice, access to industry insights, and help to secure meaningful work experience during Sixth Form. The programme provides careers guidance for all, with a particular focus on specific next steps for those moving on to training or employment, rather than university study. We actively support pupils and parents with guidance during the process of exploring and applying for apprenticeships.

Life Skills

Our Life Skills programme helps students develop healthy habits, manage their wellbeing, make safe decisions and navigate the practicalities of adult life.

University Preparation

For those considering higher education, guidance around university and UCAS helps pupils understand the application process and produce strong, well-supported applications.

DIGITAL BALANCE & SAFETY

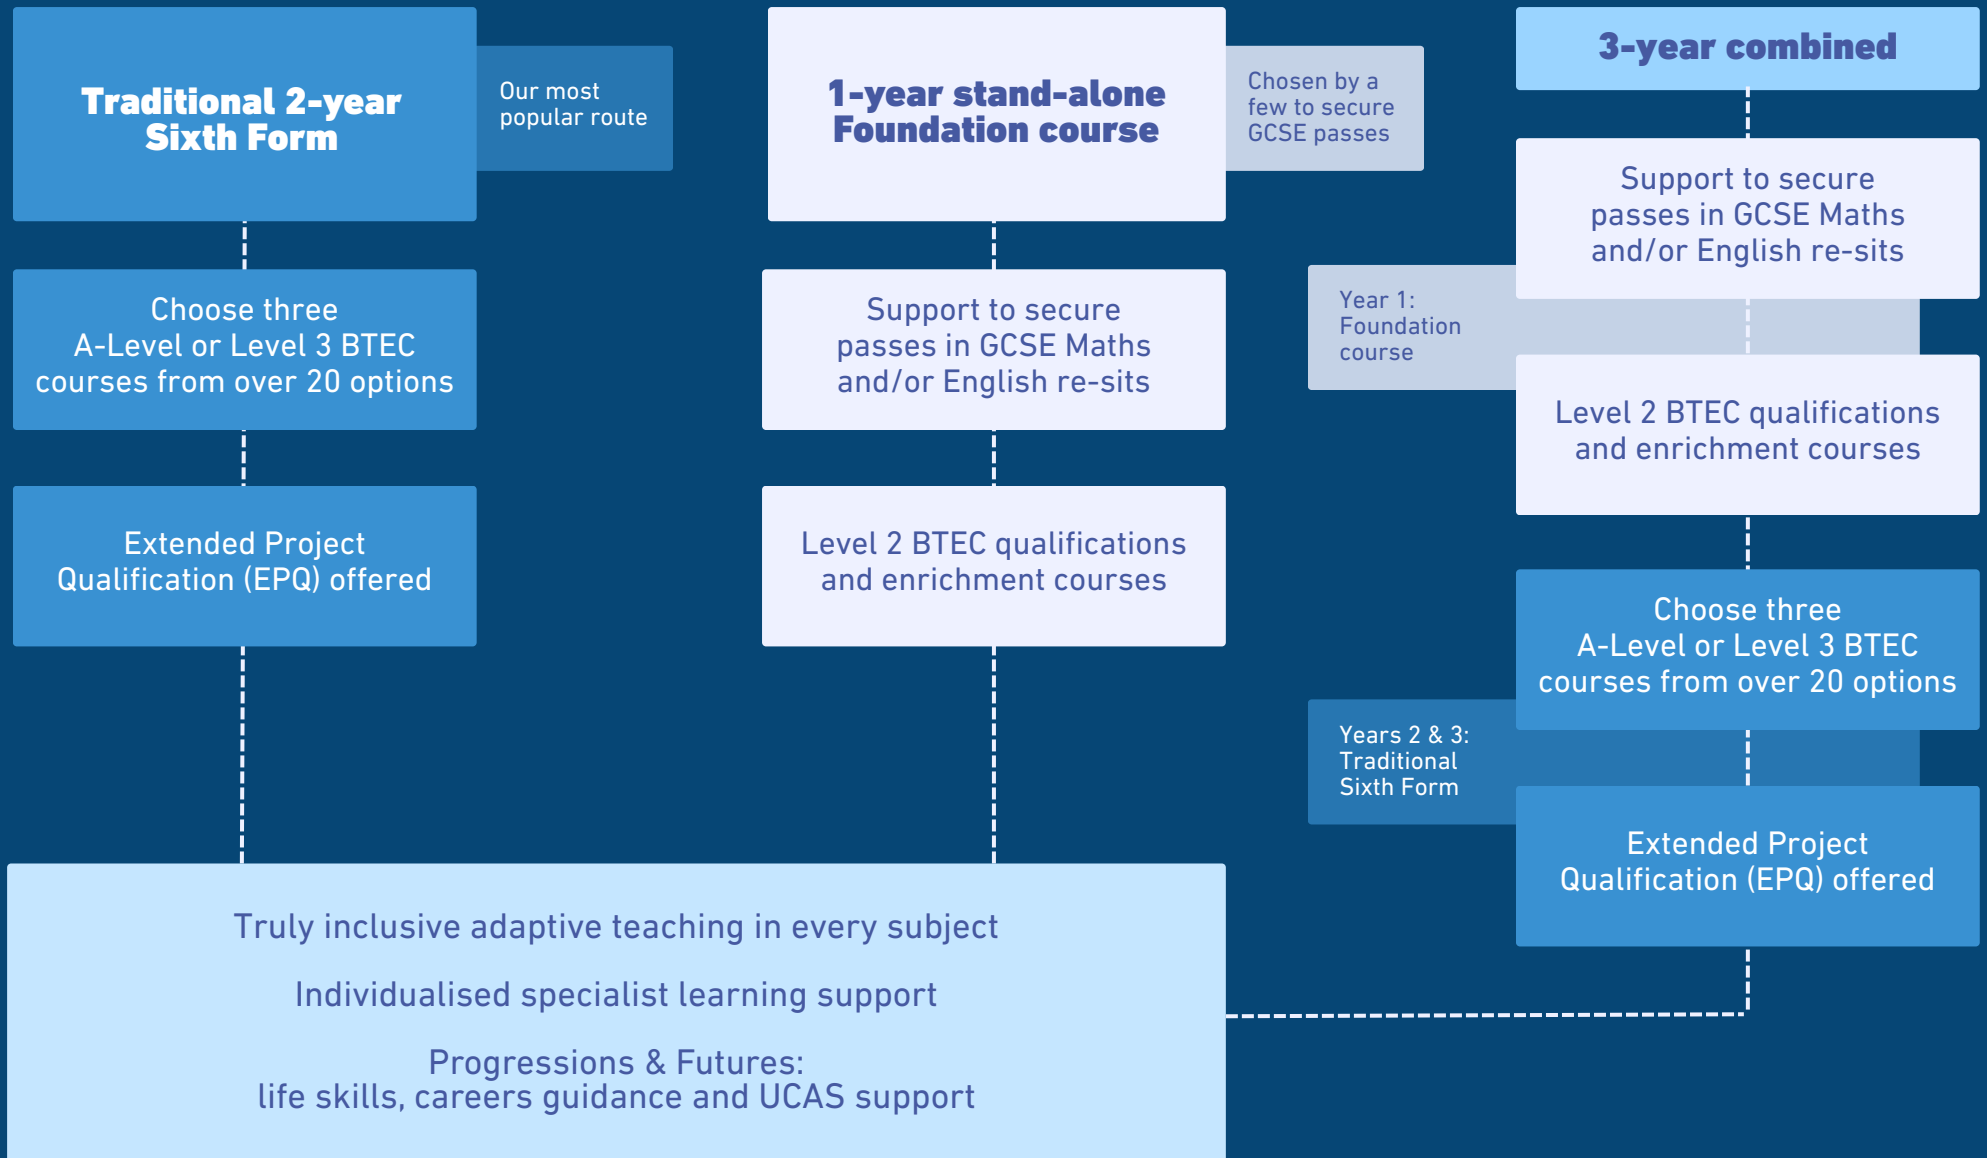

LIFE MANAGEMENT

Personalised pathways

the right journey for you

At More House School, our Sixth Form offering can be more flexible and personalised than some other FE colleges, and we can support you to decide which route will work best for you. Here is an overview of the three distinct pathways in the Sixth Form:

Sixth Form boarding

a launchpad for life

At More House, Sixth Form is about more than academic achievement — it's about equipping young people with the confidence, skills, and independence they need to thrive beyond school.

Our residential provision plays a vital role in this journey. Whether it's mastering essential life skills like laundry and cooking, learning to balance increasing academic demands, or navigating social situations with greater self-awareness, our Sixth Form boarders are supported to take meaningful steps towards adulthood at a pace that works for them.

Often day pupils decide to board with us during the Sixth Form, not out of necessity, but because they recognise the advantages. Boarding removes long daily commutes, giving them extra hours each week to focus on their future, balance their studies, and enjoy a richer school-life experience.

Boarders in the Sixth Form enjoy study bedrooms designed to mirror the layout and feel of university halls which provide the perfect bridge between the familiarity of home and the independence of adult life.

Beyond the boarding houses, pupils benefit from access to a wide range of on-site facilities, including a fully equipped gym, creative studios, dedicated study spaces, and calm social areas.

Structured mentoring and close links between school and boarding staff promote students' self-confidence, independence and self-advocacy. Students receive guidance on managing complex homework, attending university interviews and navigating challenging tasks successfully.

(Ofsted Boarding & Social Care Report, February 2026)
